Score Big With A Lower Cost Champion

BIG RED 3 rolls out bales like the Nebraska offense rolls out yards. **BIG RED 3** is a blend of good yielding, winter-hardy alfalfa varieties with good forage quality. **BIG RED 3** is a very persistent blend with a solid disease resistance base, which provides solid protection in adverse environments. This *fall dormancy 3 blend* will persist for five or more years under normal harvest management and production conditions.

BIG RED 4 rolls out bales faster than the Nebraska offense rolls out yards. **BIG RED 4** is a blend of very high yielding, winter-hardy alfalfa varieties with good forage quality. **BIG RED 4** is a very persistent blend with a solid disease resistance base, which provides solid protection in adverse environments. This *fall dormancy 4 blend* will persist well into five productive years. The *Alfalfa* Championship Series ranks this top alfalfa blend as a big winner.

AGRONOMIC TRAITS

Disease	Big Red 3	Big Red 4	Pest	Big Red 3	Big Red 4
